I.	Basis	s of the report
1.	With	regard to the elements of the international application:*
		the international application as originally filed.
	\boxtimes	the description:
		pages 1-29 as originally filed
		pages NONE, filed with the demand pages NONE, filed with the letter of
	\square	
		the claims: pages 30-32, as originally filed
		pages 30-32, as originally filed pages NONE, as amended (together with any statement) under Article 19
		pages NONE , filed with the demand
		pages NONE, filed with the letter of
	\bowtie	the drawings:
		pages 1-33 , as originally filed
		pages NONE , filed with the demand pages NONE , filed with the letter of
	Ш	the sequence listing part of the description: pages NONE , as originally filed
		pages NONE , filed with the demand
		pages NONE , filed with the letter of
2.		regard to the language, all the elements marked above were available or furnished to this Authority in the
		page in which the international application was filed, unless otherwise indicated under this item.
	Thes	e elements were available or furnished to this Authority in the following language which is:
	H	the language of a translation furnished for the purposes of international search (under Rule23.1(b)).
	H	the language of publication of the international application (under Rule 48.3(b)).
	Ш	the language of the translation furnished for the purposes of international preliminary examination(under Rules 55.2 and/or 55.3).
3.	With	n regard to any nucleotide and/or amino acid sequence disclosed in the international application, the national preliminary examination was carried out on the basis of the sequence listing:
		contained in the international application in printed form.
		filed together with the international application in computer readable form.
		furnished subsequently to this Authority in written form.
		furnished subsequently to this Authority in computer readable form.
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
		The statement that the information recorded in computer readable form is identical to the written sequence listing
	_	has been furnished.
4.		The amendments have resulted in the cancellation of:
		the description, pages NONE
		the claims, Nos. NONE
		the drawings, sheets/fig NONE
5.		This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**
*	Repla	cement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in
thi	s repo	ort as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). The replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/US03/34684

V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. STATEMENT Novelty (N) Claims 2,4,9-14 and 16-30 YES NO Claims 1, 3, 5-8 and 15 Inventive Step (IS) Claims 2, 4, 9-14, 16-30 YES Claims 1, 3, 5-8 and 15 NO Industrial Applicability (IA) Claims 1-30 YES Claims NONE NO

2. CITATIONS AND EXPLANATIONS

Claims 1, 3 and 5-8 lack novelty under PCT Article 33(2) as being anticipated by Ayub et al. Ayub et al. teach a method of preparing a fibrous protein hydro-gel wherein the fibrous protein is silk an the solvent is ethanol (materials and methods, page 1910)

Claims 1, 5 and 15 lack novelty under PCT Article 33(2) as being anticipated by Dinerman et al. Dinerman et al. teach a method of preparing a fibrous protein hydro-gel wherein the fibrous protein is silk and the hydro-gel is a bulk solid hydro-gel comprising several ordered layers of the fibrous protein

Claims 2, 4, 9-14 and 16-30 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the method of preparation of the smectic hydro-gel as claimed by the applicants.

Claims 1-30 meet the criteria set out in PCT Article 33(4), and thus meet industrial applicability because the subject matter claimed can be made or used in industry.
